Box of 1

Catalog #	Description
70027518	CLEANER Vac Thrombectomy System*

*The system includes an aspiration canister, handpiece, and aspiration catheter.

Indication for use:

The CLEANER Vac Thrombectomy System is indicated for the removal of fresh, soft thrombi and emboli from the vessels of the peripheral venous vasculature, and for the infusion of physician-specified fluids, including thrombolytics. The CLEANER Vac Thrombectomy System is not intended for use in the pulmonary vasculature for treating of pulmonary embolism.
